(j) Details of meetings held-

3/1/19

The meeting of BMC members were called for finalising the activities of 'Flood Risk management training in and around Kalady' going to be held from 4th to 6th January. The Student members were given duties by dividing them into groups. Each group functions as committees like reception, registration, food, certificate, survey etc.

Details of activities Done

4/1/19 Friday, January 2019

The three day training on Flood Risk Management in the selected areas in and around Kalady was organized jointly by Bhoomitrasena Club and IQAC and funded by Kerala State Council Science Technology and Education, Govt. of Kerala. The program began with the worship of God by Juliet Varghese, of III year Zoology. Principal Sri. N. Sambhu Nampoothiri welcomed the gathering. The training program was inaugurated by Sri. Muralee Thummarukudy, Chief, Disaster Risk Reduction, UNEP. The formal meeting was presided over by the Managing Director, Sree Sankara Group of Institutions.

He gave a magnificent speech on the topic **‘Is Flood a Natural Disaster?’** The Natural hazards-turned-disasters are precipitated by the high density of human settlements in sensitive areas “We need to be prepared for eventualities and build a better, safer, greener Kerala. The future depends on what we decide today. Plan for the future where mistakes of the past are not repeated,” He expressed huge concern over the attitude of we Keralites who never learn anything from such calamities and won’t take any steps further to check or prevent such disasters. He invited the attention of the gathering into the term Disaster which includes not only natural calamities but all sorts of accidents. Following the speech, there was an interactive session where audience interacted with the speaker clarifying their doubts. The session was ended at 11.10 am.

After the tea break, at 11.30 am, Smt. Sheeladevi, Dy. Collector, District Disaster Management the speaker shared her experience regarding the actions taken by the District disaster manage authority after the 2018 flood. The activities done by the authorities can be categorized into four phases – Rescue & rehabilitation; distribution of basic needs like food clothes etc; sanitation and distribution of financial aid; cleaning of flood affected houses, wells and such drinking water sources etc. The interaction winded up at 1.00 pm for lunch.

Afternoon session began at 1.30 pm, Dr. T.V Sajejev, Research Coordinator, Kerala Forest Research Institute, gave a splendid insight on the topic **‘2018 Floods: The Big Picture & the Small State’**. The talk tried to unveil the big picture and the lessons for the small State of Kerala.

5/1/19

The second day of the program began at 9.30 am by Dr. K.R Baiju, Associate Professor, School of Environmental Science, Mahatma Gandhi University, Kottayam. He provided an in-depth knowledge in the topic **‘Recent Floods and Natural Hazards of Kerala: A Geo scientific**

Outlook’. Natural hazard is as the coexistence of people in a natural environment that may disrupt or threaten their safety, property, or livelihood at an unpredictable time. There are many such natural events that, when experienced in an extreme degree, may become a risk to the inhabitants of an environment. Hazards and the disasters can be classified as **rapid onset or cataclysmic**, and **long term or continuing**. In month of August, 2018 Keralites have experienced a cataclysmic disaster the *mega floods* and is still in confrontation with its continuing effects, and the major cause is anthropogenic- environmental degradation, deforestation, desertification etc. The class focussed on the geological, meteorological and anthropogenic causes of the recent floods, landslides and associated hazards. He finished the session at 11.45 pm and opened for interaction. The audience interacted freely and it was very informative.

12.00 – 12.30 pm The program coordinator Dr. Mini K D gave a brief instruction on the field visit which will be started at 1.30 pm. The students were divided into ten groups based on the institutions participated. The areas they were visiting were Kaipattur, Manikiamangalam, Chengal, Vattathara and Kanjoor of Kalady Panchayath. Among the ten groups, two groups each were permitted to visit one area mentioned . The participants were informed to collect data based on the questionnaire provided. They were asked to collect and compile the data obtained and present it on 6th Sunday. Each institution should present the report and the best presentation will be given prize.

The meeting adjourned for lunch.

Visit to Flood affected areas of Kalady

At 1.30 pm all the participants got ready for the trip. The bus came on time and everybody got into the bus accompanied by teachers. The students were dropped their respective areas (Kaipattur, Manikyamangalam, Chengal, Vattathara and Kanjoor) according to the prior instruction. All of them were in good spirit and as per the instruction all finished off their survey and came at 4.30 pm.

6/1/19

The session began at 10 am by Adv. Harish Vasudevan, Green Activist & Environment law Expert discussed the topic 'Environment Planning in Disaster Risk Reduction'. Environment Planning has a vital role in Disaster Risk Reduction. Planning will help to reduce the chance of disaster and its impact to the society, in a multiple way. Land planning will help to identify the natural hazard proneness of various areas and find suitable risk free areas for development. Development plan can also take risk assessment into consideration and include risk reduction Plan into the same. Resource planning will help to take precautions for ensuring lesser damage to valuable resources. The students were deeply impressed by the energetic presentation. The session ended at 11.00 am.

Poster Presentation Competition on theme 'Kerala Flood 2018'

The participants took part in the poster competition. Twelve posters were exhibited. Some of the posters were good justified the title.

Survey Report Presentation

The participants found very enthusiastic and active in presenting the report. Ten presentations were there, of which some were extremely good. The presentation completed at 2.00 pm and all went for lunch.

Valedictory Session

All the participants reassembled for valedictory function in the Seminar Hall at 3.00 pm. The session began with invocation by Juliet. Dr. S Mohan, IQAC Coordinator welcomed the gathering. Principal Sri. Sambhu Nampoothiri presided over the meeting. The Chief Guest, Smt. Thulasi Teacher, Kalady Panchayath President, inaugurated the function and delivered valedictory address. In her speech she shared her experience of the flood affected areas in her Panchayath - rescue, rehabilitation, medical aid, distribution of cloth, kits etc.

Dr. Manju T. Dept. of Physics, marked the felicitation and Dr. Ratheesh C. Nair recapped the events of the three days program. The Principal distributed the certificates to all the participants and Thulasi teacher gave away the prizes to all the winners.

The participants shared their experiences in the three day training program. They suggested to conduct such events in the coming years also. Program ended at 4.30 pm. The training program was organized adopting Green Protocol.
