Report of the activity On 22 and 23 February 2017, Department of Physics hosted a physics exhibition named “ DIVI2017” . The main venue was the college auditorium. The exhibition served as a platform for our students to give life to things that they learned in their class rooms. Also it helped to make an awareness about physics in the non-physics community. Students from other disciplines, teachers, pupils and teachers from some nearby schools and public visited the exhibition. Various game shows, documentary shows etc. were also part of the exhibition.

Another remarkable event was a sky-watch programme led by Dr. N. Shaji, Head, Department of Physics, Maharaja's College, Ernakulam on the evening of February 23. Admission to this programme was open to all students of our college. More than one hundred students participated in this programme.
