

- **14/12/2023 : “ENERGY CONSERVATION DAY”**

Students of the REM Department gave a one minute presentation in every class of Self finance building to create awareness on Energy Conservation. At 11.30 am, an expert talk on ‘Energy conservation and entrepreneurship’ by our Alumni, Jithin K V and CEO of Sekhmet Energy Pvt Ltd. The speakers have been in the industry for the last five years and as a result they were able to give an insight on the current situation of the solar energy industry. They also provide detailed information on how to be a solar entrepreneur and its hurdles. The talk started with an introduction on Solar PV systems followed by necessity of Energy Conservation in India, ways to achieve it. The talk was ended by a doubt clearing session.
